**PureLife is a Self-Pay Pharmacy  
No Insurance Needed!**

**If you are one of the many Alabama patients that:**

- Pay for your own prescriptions out of pocket,
- Have high-deductible insurance,
- Are in a Medicare Part D Donut Hole,
- Or have high copays for some of your medications,

You need to call Pure Life Pharmacy. We are a Self-Pay pharmacy dedicated to lowering the cost of your medication!

**What is a Self-Pay Pharmacy?**

A Self Pay pharmacy is a pharmacy that has chosen to eliminate their insurance contracts to free itself from the contractual pricing structure. A patient that uses a Self Pay pharmacy pays the pharmacy directly without having to exchange insurance information or use copay cards. Self Pay pharmacies are commonly used to lower the patient's cost of generic maintenance medications.

**Why would cancelling insurance contracts benefit the patient?**

Because in many cases it significantly lowers the cost of medication!

Did you know that pricing for most medications are set by the insurance contracts? We have eliminated our contracts, so we are not required to follow the contractual copayment or pricing structure. For many patients, this translates into prescription drug prices which are often significantly lower than cash prices offered by other pharmacies (and often times even lower than copayments).

If you want to lower your prescription drug costs, call us today. We will discuss the ways to save you money. We like to make things easy. If you decide to use our pharmacy, we will call your old pharmacy and transfer the prescriptions for you. And to top it off, we also deliver!

Call us and we will transfer any prescription to our pharmacy for you. **251.424.1544**
